¹ Indicates a course with prerequisites or corequisites.

² MATH 1225 Calculus of a Single Variable¹-MATH 1226 Calculus of a Single Variable¹ and MATH 2214 Introduction to Differential Equations¹ or MATH 2214H Introduction to Differential Equations¹ and PHYS 2305 Foundations of Physics-PHYS 2306 Foundations of Physics¹ are also required of all Physics Majors within the B.A. Degree Program in Physics. They are listed in Pathways to General Education Requirements above.

³ The following course sequence is required of all students majoring in Physics within the B.A. Degree in Physics.

Accepted Substitutions

- PHYS 3355 Intermediate Mechanics: AOE 3154 Astromechanics, or ESM 3124 Dynamics II- Analytical and 3-D Motion
- PHYS 3405 Intermediate Electricity and Magnetism: ECE 3105 Electromagnetic Fields

- PHYS 3314 Intermediate Laboratory: AOE 3054 Experimental Methods, or ECE 2274 Electronic Networks Laboratory I, or ESM 3444 Mechanics Laboratory

Foreign Language Requirement

Students who did not successfully complete at least two years of a single foreign, classical, or sign language during high school must successfully complete six credits of a single foreign, classical, or sign language at the college level. Courses taken to meet this requirement do not count toward the credits required for graduation. Please consult the Undergraduate Course Catalog for details.

Satisfactory Progress Toward Degree

A student will be certified as making satisfactory progress toward the B.A. degree in Physics by satisfying the university's academic eligibility requirements, as well as the following requirements:

- Upon having attempted 60 credit hours, the student will have completed Concept 1 requirements, the Mathematics requirements as well as PHYS 2305 Foundations of Physics-PHYS 2306 Foundations of Physics, PHYS 2325 Seminar for Physics Majors-PHYS 2326 Seminar for Physics Majors, PHYS 2504 Math Methods in Physics, and PHYS 3324 Modern Physics.
- Upon having attempted 45 credit hours, the student must have 2.0 overall and in-major GPAs. All PHYS courses attempted are used in the calculation of the in-major GPA. Non-PHYS courses used as Accepted Substitutions are not used in the calculation of the in-major GPA.
- Upon having attempted 72 credit hours, the student will have completed the foreign language requirement by the close of the academic year (spring semester). [College of Science requirement]
- Upon having attempted 96 credit hours, the student will have completed all credits for the Pathways to General Education.

Outcomes Assessment

Each student is required to participate in the department's Outcomes Assessment procedures as determined by each year's Undergraduate Program Committee and approved by the Department Chair.

Minimum Hours and GPA Required for Graduation

A minimum of 120 credit hours must be completed for graduation. A minimum overall and in-major GPA of 2.0 is required for graduation. All PHYS courses attempted are used in the calculation of the in-major GPA. Non-PHYS courses used as Accepted Substitutions are not used in the calculation of the in-major GPA.

Prerequisites and Corequisites
